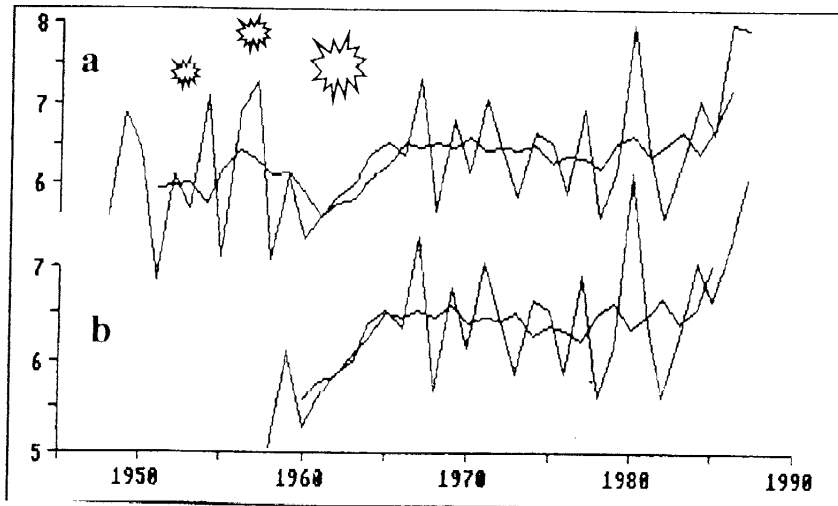

FIG.5.2. Leukemia age 0-4 in the Nordic Countries.

(a) Rates (with 5yr. moving average) of childhood leukemia per 100,000 at ages 0-4 in Denmark up to 1958 and in all Nordic countries 1959-1987.

(b) Rates as in (a) for all Nordic countries but without using the Denmark data.

The trend in fallout is indicated schematically.
